

Automotive Designer

Morgan Motor Company are looking to recruit an additional person to join its Automotive Design and styling team. Reporting directly to Morgan's Head of Design, you will play a vital role in helping define the next generation of Morgan vehicles. Working within a fast paced creative team, your responsibility will be to mature and develop design proposals at exterior, interior and component level. In addition A competence in specifying technical CMF (colour, material, form) properties is being sought to assist the design release process.

Responsibilities and tasks

- Input on design challenges and communicate ideas with high quality descriptive drawings, renderings and digital / physical 3d models
- Communicate and collaborate with Design, Engineering and manufacturing departments in helping to define colour, material and finish specifications.
- Provide CMF solutions which inform new designs for production and concept vehicles, whilst taking into consideration market trends, Brand identity and final application.
- Must be able to provide creative and high-quality design proposals for concept and production vehicles at exterior, interior and component level and confidently present proposals for design reviews.
- Meet tight deadlines, whilst working on simultaneous projects, in an efficient and collaborative manner

Skills and Qualifications

- 2+ years experience at either production or advanced OEM (transportation industries preferred) working with design teams as well as material specialist and suppliers.
- High proficiency with Adobe creative suite; in particular Photoshop. (illustrator & InDesign proficiency also valued)
- Strong skill in 2D visual communication (Hand sketch / Photoshop / Sketchbook)
- Relevant Education qualifications – College / university Transportation Design Degree preferred.
- Skilled at capturing design intent whilst recognizing criteria and project limitations
- Ability to express good technical and mechanical aptitude whilst considering material, manufacture, colour, form, fit and finish of components.
- Effective communication, negotiation and presentation skills
- Self-starter with the ability to work with little supervision
- Experience in 3D physical and digital design development (Alias Automotive / Catia / Hard modelling) not essential but preferred

Terms and Benefits

- 37.5 hours per week (flexi time scheme)
- 33 days holiday per year (inclusive of some Bank holidays)
- BUPA health insurance.
- Pension scheme.
- Death in Service Benefit
- Enhanced Paternity/Maternity leave and pay
- Cycle2work Scheme
- Childcare vouchers

How to apply

Interested applicants should send their CV, covering letter and visual portfolio to matthewj@recruit12.com
