

## Digital Modeler / Designer

Morgan Motor Company are looking to recruit an additional person to join its Automotive Design and styling team. Reporting directly to Morgan's Head of Design, you will play a vital role in helping define the next generation of Morgan vehicles. The purpose of the role is to develop and mature new design proposals using industry standard CAD software. You will be responsible with provide engineering departments with high quality digital 'A' surface data for exterior and interior components.

### Responsibilities and tasks

- Working with the design department at Morgan to create high quality digital surfaces for concept and production vehicles at exterior, interior and component level.
- Use Autodesk Alias and / or Catia to create high quality and accurate 3D models efficiently with design and engineering input.
- Meet tight deadlines, whilst working on simultaneous projects, in an efficient and professional manner
- Work in a collaborative team environment.
- Input on design challenges and communicate ideas with descriptive drawings, renderings and 3d models.

### Skills and Qualifications

- 2+ years experience at either production or advanced OEM working with both styling designers and engineering departments. (transportation industries preferred).
- Very high proficiency with Autodesk Alias and / or Catia / Icem to create automotive surfacing (Class A standard not essential but highly valued).
- Proficiency with Adobe creative suite; in particular Photoshop, to be highly valued.
- Relevant Education qualifications – College / university Transportation Design Degree preferred.
- Skilled at capturing design intent while recognizing criteria and project limitations.
- Ability to express good technical and mechanical aptitude In regard to materials, manufacture, fit and finish.
- Proficiency in VRED not essential but preferred.
- Familiarity with BOM / parts management systems not essential but valued.
- Self-starter with the ability to work with little supervision.

### Terms and Benefits

- 37.5 hours per week (flexi time scheme)
- 33 days holiday per year (inclusive of some Bank holidays)
- BUPA health insurance.
- Pension scheme.
- Death in Service Benefit
- Enhanced Paternity/Maternity leave and pay
- Cycle2work Scheme
- Childcare vouchers
