

Job Title: Web Developer
Reporting to: Digital Development Manager
Department: Global Marketing
Location: Office based at the Morgan Motor Company, Malvern, Worcestershire

The Company

Located in Malvern, Worcestershire, Morgan Motor Company Limited is an innovative British sports car manufacturer known for its hand-crafted sports cars. It is also a £35m turnover, profitable manufacturing business employing 230 people at its Malvern factory. Morgan distributes via a network of c.70 dealers globally, with export markets representing around 70% of production demand annually.

The Role

This role is based within Morgan's growing Digital Development team, which has recently been absorbed into the wider Marketing department.

Morgan is looking for a forward-thinking and passionate developer who is comfortable working with backend tech, and also able to get involved with frontend tasks as required. The role will be reporting to and working alongside the Digital Development Manager day-to-day, and will focus on websites, car configurators, dealer portals, company internal portals, updating legacy code, improving performance and security.

In addition, the role includes the opportunity to have a direct influence into Morgan's ongoing digital transformation, online consumer experiences, and an exciting lineup of future multi-platform projects. Morgan is a business that welcomes continuous innovation and technical improvement. The successful candidate will be joining a creative team environment.

Pre-Requisite technical experience:

The role will include but not be limited to the following:

- Thorough experience of PHP, and ability to use the same practice for backend Node.js
- Bespoke PHP systems / WordPress (WooCommerce)
- MVC (Laravel / CodeIgniter)
- Modern JavaScript
 - Vue, React
 - Node.js and Express (APIs/SSR)
 - Ability to refactor legacy JavaScript
- Server skills (Linux, Windows, setup and initial admin tasks)
- Database planning and creation
 - MySQL / MSSQL
 - MongoDB / NoSQL
- HTML, CSS (SCSS)

- Have 2-5+ years' experience in a commercial environment
- A relevant degree or demonstrable experience
- Experience with multiregional and multilingual applications
- Ability to listen and understand complex business problems and translate into quality solutions

Desired skills / knowledge:

- Testing (TDD)
- Native app development with Cordova/React Native or similar
- CI / CD pipelines / Docker / AWS
- Creative skills Adobe / Figma

Person specification:

- Self-motivated, organised, able to time manage, with a passion for the development of many system types
- Excellent written and verbal communication skills
- Must demonstrate an adaptable approach and display an openness to change
- Proactive personality who will challenge current thinking and strive for continuous improvement
- Spotting opportunities for technical growth in platforms and processes
- Excellent problem-solving, analytical and troubleshooting skills; ability to work with minimum guidance whilst adaptable, proactive and willing to take ownership

Terms & Benefits

- 37.5 hours per week on site
- Salary £25-30k gross pa (DOE)
- 33 days holiday per year
- Pension scheme (5% contribution from Morgan)
- Private Medical Insurance (BUPA)
- Cycle2work scheme
- EV Salary Sacrifice scheme
- Enhanced paternity, maternity & sick pay benefits
